

Medicines today plays a magical role in everyone's life. Sometimes medicines increase the problem and sometimes they cure the disease. The doctors are confused and the patients are annoyed. The findings show that unnecessary use of medicines has created a trend in which people not only take medicines for every small ailments but also advice to do so. This habit of taking medicines by self has become a fashion these days. People try to show off their this quality as their status symbol.

This practice is not merely confined to normal medicines but also to antibiotics. The true meaning of 'antibiotics' is - 'against life'. Due to the misuse and overuse of these antibiotics our body has started losing its resistance power and people have started falling sick on a regular basis. Let us stop taking medicines by ourselves and let medicines work magically on its own.
