

**O. P. JINDAL SCHOOL, SAVITRI NAGAR**  
**Annual Examination (2025 – 2026)**

**Class / Section: III / \_\_\_\_\_**  
**Subject: Mathematics**

**MM: 80**  
**Time: 2Hrs.**

Name: \_\_\_\_\_

Roll No: \_\_\_\_\_

Invigilator's Sign: \_\_\_\_\_ Marks Obtained: \_\_\_\_\_

Examiner's Sign: \_\_\_\_\_

**General Instructions:**

All questions are compulsory.

Question 1 to 24 carry 1 mark each

Question 25 to 32 carry 2 marks each

Question 33 to 40 carry 3 marks each

Question 41 to 44 carry 4 marks each

**[SECTION – A]**

**Tick the correct option:**

Q1. The weight of an egg is measured in \_\_\_\_\_.

- |         |       |
|---------|-------|
| a) gram | c) L  |
| b) kg   | d) ml |

Q2.  $1\text{kg } 750\text{g} =$  \_\_\_\_\_

- |                                                            |                                |
|------------------------------------------------------------|--------------------------------|
| a) $1\text{kg} + 500\text{g} + 300\text{g}$                | c) $500\text{g} + 500\text{g}$ |
| b) $500\text{g} + 500\text{g} + 500\text{g} + 250\text{g}$ | d) $500\text{g} + 250\text{g}$ |

Q3.  $10 + 10 + 10 =$  \_\_\_\_\_

- |               |               |
|---------------|---------------|
| a) 3 times 10 | c) 3 times 15 |
| b) 4 times 10 | d) 4 times 15 |

Q4. ZA, YB, XC, \_\_\_\_\_

- |       |       |
|-------|-------|
| a) WD | c) CZ |
| b) AB | d) BB |

Q5. Milk in a cup is measured in \_\_\_\_\_.

- |         |       |
|---------|-------|
| a) gram | c) L  |
| b) kg   | d) ml |

Q6. I am the greatest odd number less than 50

- |       |       |
|-------|-------|
| a) 49 | c) 25 |
| b) 10 | d) 50 |

Q7.  $24 \div 6 =$  \_\_\_\_\_

- |      |      |
|------|------|
| a) 6 | c) 4 |
| b) 5 | d) 8 |

Q8. The smallest even number is \_\_\_\_\_.

- |      |      |
|------|------|
| a) 8 | c) 1 |
| b) 2 | d) 9 |

Q9. Rupees twenty five and fifteen paise

- |            |            |
|------------|------------|
| a) ₹ 15.15 | c) ₹ 29.55 |
| b) ₹ 25.15 | d) ₹ 25.05 |

Q10.  $150\text{g} + \text{_____ g} = 500\text{g}$

- |        |        |
|--------|--------|
| a) 250 | c) 200 |
| b) 350 | d) 300 |

**Fill in the blanks:**

Q11. There are \_\_\_\_\_ days in 7 weeks.

Q12.  $8\text{L} = \text{_____ ml}$

Q13.  $32\text{kg} = \text{_____ g}$

Q14.  $\text{₹ } 55 - \text{₹ } 13 = \text{₹ } \text{_____}$

Q15. Dividend = 35, Divisor = 5, Quotient = \_\_\_\_\_

Write 'True' or 'False'

Q16.  $98009\text{g} = 98\text{kg } 9\text{g}$

\_\_\_\_\_

Q17. Pictorial representations are called Pictographs.

\_\_\_\_\_

Q18.  $900\text{ p} = ₹ 99$

\_\_\_\_\_

Q19.  $623 \times 1 = 1$

\_\_\_\_\_

Q20.  $₹50 + ₹30 = ₹ 100$

\_\_\_\_\_

Match of the following:

**Column A**

Q21.  $59 \times 100$

Q22. 800 g of banana

Q23.  $20 - 9$

Q24.  $85 \div 85$

**Column B**

i) odd number

ii) 5900

iii) 1

iv)  $500\text{g} + 300\text{g}$

**[SECTION – B]**

Q25. Circle the heavier object.

a)

balloon

OR

bag

b)

bricks

OR

bottle

Q26. Complete the pattern:

27, 36, 45, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

Q27. Write all the odd numbers between 397 and 406.

\_\_\_\_\_

Q28. Colour all the even numbers in the given box.

|     |     |     |
|-----|-----|-----|
| 657 | 378 | 665 |
| 111 | 234 | 989 |
| 802 | 101 | 500 |

Q29. Circle the object with larger capacity.

a)

OR

b)

OR

Q30. Write two multiplication facts for  $63 \div 7$

a) \_\_\_\_\_

b) \_\_\_\_\_

Q31. Convert:

a) 6070 p = ₹ \_\_\_\_\_

b) ₹ 27.94 = \_\_\_\_\_ p

Q32. Draw a combination of weights to match 3kg 750g by using:  
50g, 100g, 500g and 1kg.

**[SECTION – C]**

Q33. Ravi bought a cap for ₹ 107 and a tie for ₹ 200. How much did he spend in all?

Q34. Divide and find the quotient and remainder.

$$703 \div 7$$

Q35. Shovit fills 100 ml water in one balloon. How much water does he need to fill 8 balloons?

Q36. Find the difference between the biggest 3-digit number and the smallest 2-digit even number.

Q37. Study the graph and answer the given questions:

| Days                                                                                                | Inkpots                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Monday                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Tuesday                                                                                             |                                                                                                                                                                                                                                                                                                                                                    |
| Wednesday                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Thursday                                                                                            |            |
| Friday                                                                                              |                                                                                                                                                                                                                                                                                                                                                    |
| Key  = 5 inkpots |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

a) How many inkpots were sold on Wednesday?

---

b) On which day the sale was more?

---

c) On which two days the sale was equal?

---

Q38. Multiply the number in expanded form.

$$267 \times 5$$

Q39. A book contains 96 pages. Sohan read 45 such books. How many pages did he read in all?

Q40. Study the pictograph and answer the questions. (  = 1 glass of water )

| Names   | Glass of water                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
