

O.P. JINDAL SCHOOL, SAVITRI NAGAR

Periodic Test –III Round -2 Session 2025-26

Class/Sec- VI/____

Time- 1 hour

Name- _____

Roll no. ____

.....
Choose the correct answer.

1. The process of conversion of water vapor into water is called
 - a. Evaporation
 - b. Condensation
 - c. Melting
 - d. Precipitation
2. Evaporation is faster if the area is
 - a. Smaller
 - b. Larger
 - c. Good
 - d. Beautiful
3. Water vapour is the _____ state of water.
 - a. Solid
 - b. Gaseous
 - c. Liquid
 - d. None of them
4. When the water vapour present in the air comes in contact of cool surface, it forms
 - a. Water droplets
 - b. Snowflakes
 - c. Ice-cubes
 - d. Sea water
5. Which of the following forms of water has a fixed shape and volume?
 - a. Gaseous
 - b. Solid
 - c. Liquid
 - d. Both a & b
6. What changes the state of water?
 - a. Heating
 - b. Cooling
 - c. Freezing
 - d. All of them

Answer the following.

7. Water is our responsibility before our rights. Explain with four examples.
8. Draw a diagram to show conversion of water into different states.
9. Write Any two properties of water. And name any two solid states of water, present around us.
10. Write four uses of water.
11. Draw water-cycle and label it.
12. Explain what the process of evaporation depends on (any three).
