

O.P. Jindal School, Savitri Nagar, Tamnar.

Syllabus 2025-26, Science Class-VI

Month	No. of ID	Topics	Subject Enrichment	Value to be added	Extra Content
April	23	Ch-1 The wonderful world of science	Finding science everywhere (Field visit)	Possible ways to solve problems	Science and developed technologies
		Ch-2 Diversity in the living world	Categorise organisms according to their habitats (Presentation)	Living world's contributions to human beings	Ecological balance
June	9	Ch-4 Exploring magnets	Separating magnetic and non-magnetic materials	Magnets help us in our everyday lives	Earth behaves like a magnet
July	26	Ch-6 Materials around us	Grouping things in many different ways	Grouping things systematically helps us finding things easily	Palms of our hands are translucent
		Ch-3 Mindful eating	Food pyramid (Project)	Healthy food keeps us disease free	How to defeat incurable diseases
August	23	Ch-5 Measurement of length and motion	Using different means to measure different objects	Measurement and its units give ideas about big and small quantify	Motion of different animals
		Ch-7 Temperature and its measurement	Uses of clinical and laboratory thermometer	Temperature affects our daily lives	Conversion of °C to °F and vice-versa
April, Aug		WT- April- Ch- 1, 2 August- Ch- 4, 6			
September	7	Revision & HYE- Ch- 1, 2, 3, 4, 5, 6.			

Month	No. of ID	Topics	Subject Enrichment	Value to be added	Extra Content
October	17	Ch-7 Temperature and its measurement (continue}	Use of clinical & laboratory thermometer Germinations of seeds	Keeping the body temperature normal keeps us healthy	Connection of temperature to the practical decision making in daily life
		Ch- 10 Living creatures, Exploring their characteristics	Picture book of different animals	Plants help us in many ways directly or indirectly	Ecosystem
November	21	Ch-8 A journey through states of water	Water cycle	Water is one of the most essential parts of our lives	Glaciers
		Ch-11 Nature's treasure	Projects on air pollution Uses of different rocks and minerals	Nature plays an important role for our survival	Products we get from nature
December	13	Ch-9 Methods of separation in everyday life	Separating different states of mixture with different methods	Separation methods add value by improving product quality and reducing waste	Use of bacteria proof filter
January	25	Ch-12 Beyond earth Different science activities	Solar system – model making	Heat and light, from the sun make our survival possible on the earth	Different satellites of all the planets of our solar system
Oct, Dec	WT- October- Ch- 7,10 December- Ch- 8, 11				
February	7	Revision & Annual Exam- Ch- 7, 8, 9, 10, 11, 12
