**Answer the following**

Q1 ) What do you understand by Cartographer?

Ans A person who studies and make maps is called cartographer.

Q2) Write one limitation of a map.

Ans Maps ,being two dimensional, cannot show the curved surface of the earth accurately, unlike globe which which have a three dimensional representation

Q3) what is the difference between a globe and a map? Enlist the advantage and limitation of one over other .

Ans:-

Globe	Maps
A globe is a small model of the earth	Map is drawn on a flat surface showing the whole or a part of the Earth surface
It is three dimensional	It is two dimensional
We cannot see all the parts at the same time	We can see all the places at the same time
It does not give more information	it give detail information
It is difficult to carry and take lot of space	It can be folded and taken to any place

Q4) what are symbols? How are they useful?

Ans-A symbol is a shape or sign that is used to represent something. Symbols increase the readability of the map and make it easier for use to understand maps.

Q5) Explain the term key ?

Ans -A key explains what each symbol or colour on a map represents.
