| (h) | (i) | Keep | (ii) | Take | (iii) | took | (iv) | taken |

2. Here are some notes on how our dependence on cars has become dangerous to environment. Study the given notes and complete the paragraph that follows by filling in the blanks with the most appropriate options from those given.

Dependence on cars — dangerous to environment — emit gases — contribute to air pollution
Serious problem in West — industrialized countries have made mistakes
We can avoid them

How? — rethink transport policy

But to introduce any new transport policy — must completely change our approach to urban development.

Our dependence on cars is dangerous to the environment because they emit gases (a)to air pollution. This is a serious problem in the West, but we can avoid the mistakes (b).....the industrialized countries. We will have (c).....our transport policy. However, the (d).....any new transport policy will require a complete change in our approach to urban development.
